

Aluminium body gear pumps

WHISPER series: low noise emission - reduced pulsations by 75%

Gear pumps built in three pieces with an extruded body in high resistance aluminium alloy. WHISPER is a new and original technology protected by international patents and applied to a family of external gear pumps that feature low noise emissions. The wide choice of shafts, flanges and ports, in compliance with all international standards (SAE, DIN and EUROPEAN) allow for their use in an infinite variety of applications.

Displacements from 1,12 cm³/rev • 0.07 in³/rev to 96,85 cm³/rev • 5.91 in³/rev available in groups 10, 20 and 30.

Max. peak pressure up to 300 bar • 4350 psi.

Max. speed up to 4000 min⁻¹.

Main characteristics

	Displacement cm ³ /rev • in ³ /rev	Max. continuous pressure bar • psi	Max. speed min ⁻¹

Features

- ♦ High efficiencies
- ♦ Low noise emission
- ♦ Integrated outboard bearings for heavy duty applications
- ♦ Multiple units
- ♦ Custom design

Optional built-in valves

- ♦ Anticavitation valves
- ♦ Maximum pressure relief valves
- ♦ Priority valves
- ♦ Load-Sensing priority valves
- ♦ By-pass electric valves
